

The ***Department of Library and Information Sciences*** was established in 1985 with a new approach to Library and Information Science education in the country. The Department introduced for the first time in the country a two-year integrated programme leading to Master's degree in Library and Information Science. The same pattern of education has now been recommended by the UGC under Model Curriculum in Library & Information Science in 2002. The University Library is being used as a laboratory for the students for practical training under the guidance of faculty members and practicing librarians. Thus, theory and practice are given equal emphasis through this integrated approach.

Course Offered

M. LISc.

Ph.D.
